

healtHcentric Sit Stand

The ultimate sit-stand available

healtHcentric®
The science of sitting®

Easily alternate between different postures.

With its innovative design, the **healtHcentric Sit Stand** is the ultimate sit-stand chair combining three chairs in one: providing a sit-stand, a sit-stand with backrest, or a counter or desk height task chair.

The healtHcentric Sit Stand can go from a height of 19.75" all the way up to 33". Height adjustments are easy and quick, allowing you to alternate between various postures throughout the day, removing unnecessary demands on any specific group of muscles. Ideal for labs, pharmacy, Workstations on Wheels, and other sit to stand applications.

Upholstered with the Frixion healthcare fabric, the healtHcentric Sit Stand helps prevent users from slipping while in the perched position. The front casters make the sit-stand easy to move around and it comes fully assembled for convenience.

FEATURES	
1	Frixion anti-slip upholstery
2	3 glides provide stability
3	2 casters for easy moving

Frixion™

Vinyl upholstery is slippery. The solution is Frixion.

healtHcentric's Frixion medical grade upholstery is specially designed to provide ergonomic benefits and prevent falls. Frixion helps the user stay in place and not slide forward on the chair as they sit, improving comfort and increasing the ability to engage with the lumbar support.

Frixion withstands hospital-grade cleaners and disinfectants, ensuring a hygienic seating surface for healthcare workers and patients.
