IT'S SIMPLE

Listen to TV Audio on Your Own Phone

ListenWiFi puts the power of great TV audio in the palm of your hands by allowing you to listen to up to 24 channels via the ListenWiFi Access Point using your own smart phone.

3 EASY STEPS

Download the FREE ListenWiFi app from ListenWiFi.com.

Connect to the ListenWiFi wireless network.

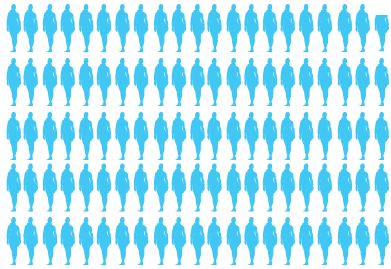

Audio is delivered to your smart phone.

WHY LISTEN?

ListenWiFi from Listen Technologies allows venues to easily stream audio to personal smart phones. It solves the problem of the noisy world we live in, so you can simply listen in challenging environments like fitness centers.

- Simple
- Plug & Play
- Mission Critical Reliability
- No Monthly Fees

144.7 Million (Each Figure=1M People)

Why Fitness?

Fitness membership is over 140 million members worldwide, and represents \$84 billion in annual revenues.

Selling Points

- Large potential market
- Fitness centers employ multiple TV's
- Fitness centers are already buying an inferior solution
- Financially beneficial for venue by reducing maintenance costs and improving member retention

ListenWiFi

- Eliminates repair costs of broken jacks and receivers
- Allows members to be mobile, users are no longer plugged into one specific piece of cardio equipment

LISTENWIFI COMPONENTS
