Introducing FSR's expanded line of table box solutions...

The T₃U RIM Series (Table Top Tilt Up) table boxes.

Designed expressly for applications requiring multiple access boxes within the same table, the FSR T₃U RIM Series handles data, power, and AV connections in a low profile box.

You can match almost any decor with the T₃U RIM Series cover finish selection. Colors include Black, brushed Brass, brushed Bronze or brushed Nickel. The T₃U RIM Series easily installs in any table surface with thickness ranging from a minimum .75" to a maximum of 2.75". In the open position, the T₃U RIM Series cover protrudes a mere 1.19" from the table top. Under the table, the T₃U RIM Series extends only 4.25" from the table top surface.

The FSR T₃U RIM Series offer a variety of connection schemes through the use of interchangeable snap in connectors and mounting plates. This allows the plates to be populated by the installer and can be changed as the need arises. FSR offers a complete line of connectors and plates to satisfy most installation requirements. (See options on the following pages).

NOTE: T₃U-1 and T₃U-2 models have a 6' NEMA 5-15 SJ cordset. The T₃U-3 model has a 9' NEMA 5-20 SJ cordset.
