

FreeStyl System

FreeStyl™

Extreme Range Scalable Cordless Phone Systems

EnGenius FreeStyl Systems are scalable 900 MHz cordless phone systems designed to provide users with unparalleled wireless coverage over long distances and in complex, multi-floor environments. They combine a sleek design, robust and powerful technology, and an array of key features that make them perfect for use in offices and large home estates.

FreeStyl phones are ideal for businesses with employees who roam beyond the confines of their offices or cubicles. They are especially useful for expansive properties (farms, ranches, hotels, luxury estates) where owners or staff need to stay connected over extended distances.

FreeStyl is the perfect choice for users who do not require the durability of the DuraFon, and prefer a handset with a little more style.

Users may include:

- Large Home Estates
- Farms and Ranches
- Hotels / Motels

Key Features:

- Scalable: Supports up to 9 Handsets (Sold Separately; Add Anytime)
- High Power/Sensitivity for Extreme Wireless Range and Connectivity
- Outperforms: 1.9 (DECT), 2.4 & 5 GHz Solutions
- 2-Way Intercom
- Speakerphone
- Simultaneous Broadcast to Multiple Handsets from Any Handset
- Limited 1-year Warranty on Base and Handset
- Limited 90-day Warranty on Accessories

Extreme Range Coverage

Up to 100,000 sq. ft. of facility coverage; up to 6 floors in-building penetration, or 10 acres in open areas

Outperforms: 1.9 (DECT), 2.4 & 5 GHz Solutions

High power/high sensitivity coverage penetrates concrete, wood and drywall

Scalable System

Single-line one-line system is expandable to 9 total handsets

Versatile

FreeStyl phones incorporate speakerphone capability and 2-way radio/wireless intercom. The intercom is private and secure, and works as a two-way radio from handset-to-handset.

Business-Friendly Features

Simultaneous broadcast to multiple handsets from any FreeStyl handset

Plug directly into a phone jack on the wall or the analog port of a PBX

Option to operate as a standalone system or as a long-range cordless analog extension to a PBX phone system

No Recurring Costs

No subscriber contracts (unlike cellular or 2-way radio licensing)

No monthly service charges or fees (unlike cellular and phone companies)

FreeStyl System Features

Long-Range

6 Floors In-Building Penetration
100,000 sq. ft. of Facility Coverage
10 Acres of Property, Open Land Coverage

Handset Features

Telephone
2-Way Radio
900 MHz DSS, Frequency Hopping
Broadcast/Push-to-Talk
Call Hold
Call Logs: Dialed & Received
Call Transfer
Call Waiting
Caller ID
Headset Jack (2.5mm)
Intercom (Handset-to-Handset, No Group Chatter)
Keypad Lock
Message Waiting Indicator (FreeStyl1)
Mute
Phone Book/Speed Dial: 50 Entries
Redial

Handset Features continued

Selectable Handset Grouping (7 Groups)
Silent Ring
Speakerphone
User Handset Naming
User-Programmable PBX Functions (9 per Handset)
Vibrate Mode

Ports

PBX Compatible
PTSN (RJ11) Ports: 2 (1 telephone, 1 line)

Call Features

Ring Group/Hunt Group Support
Conference Calling
Modifiable Flash and DTMF Timing
Base Station Speakerphone (FreeStyl1)
Base Station Dialing/Speed Dial (FreeStyl1)
Base Station Intercom/Broadcast to Handset (FreeStyl1)

Configuration

Talk Paths: 1
Supported Handsets per Base: 9
Total Handsets Supported: 9
Concurrent Calls per Handset: 1
Simultaneous Calls per Base Unit: 1

Battery and Charger

Li-Ion technology
Hours of Talk Time, 4 hrs.
Hours of Stand-By Time, 50 hrs.
Hours Recharge Time 3

Optional Equipment

Spare Battery
FreeStyl 1: Freestyl1-BA
FreeStyl 2: Freestyl2-BA
Base Antenna Kit:
Outdoor: SN-UL-AK20L
Indoor: SN-UL-AK20L-IND
Lightning Protection Kit:
SN-ULTRA-LPK
Antenna Splitter Kit:
SN-ULTRA-AS

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference, the user is encouraged to try to correct the interference, see User Manual for additional information. Base Station: This equipment complies with FCC radiation exposure limits and should be installed and operated with minimum distance 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. Handset: This equipment complies with FCC radiation exposure limits. End users must follow the specific operating instructions for satisfying RF exposure compliance, to do this, please follow operation instruction as documented in the User Manual. This device complies with RSS-210 of the Industry Canada Rules and with IC radiation exposure limits.
