IT'S SIMPLE

Assistive Listening for Smart Phones

Audio Everywhere from Listen Technologies is the first affordable plug & play, low latency Wi-Fi streaming solution that allows people to use their smart phone for assistive listening.

3 EASY STEPS

Download
the Free Audio
Everywhere App

Connect to the
venue wireless
network

Audio is
delivered to your
smart phone

WHY AUDIO EVERYWHERE FROM LISTEN TECHNOLOGIES?

Audio Everywhere from Listen Technologies makes it simple, easy, and cost effective to enable assistive listening, language interpretation, and multiple audio source delivery to guest's smart phones.

- Affordable plug & play solution
- Low latency
- Uses existing wireless network

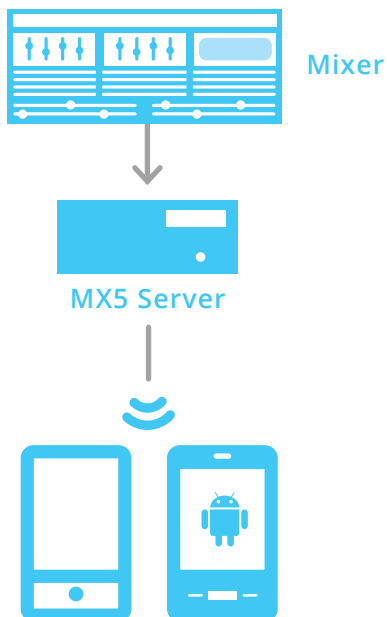

Installing an Audio Everywhere system is simple:

1. Connect a CAT-5 cable to your wireless network.
2. Connect audio from your audio sources (like the output of a mixing console).
3. Done, ready to stream.

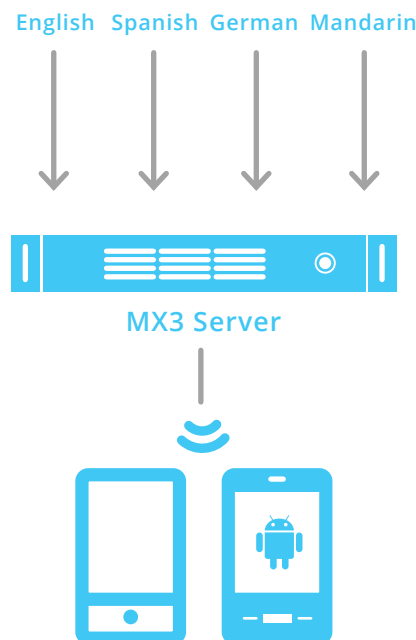

ASSISTIVE LISTENING

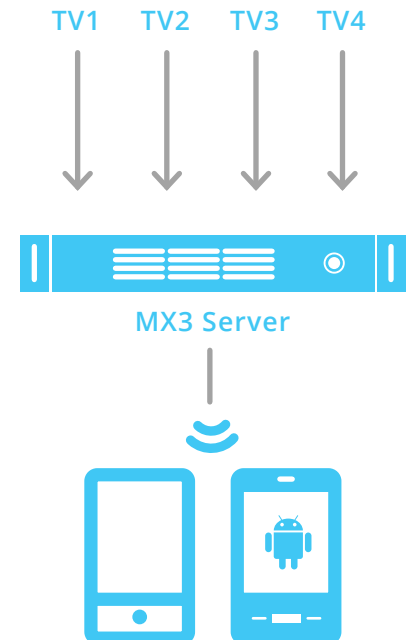

- Houses of Worship
- Theaters
- Sports Venues

LANGUAGE INTERPRETATION

- Houses of Worship
- Conference Centers
- Education

MULTIPLE TV LISTENING

- Restaurants
- Sports bars

THE INCREDIBLE AUDIO EVERYWHERE APP

The Audio Everywhere app allows you to customize and brand for your venue.

In App Marketing Features

Text Banners

Text banners allow you to insert timely updates quickly and easily.

Custom Content

Link to websites, conference agenda, PDFs and any other custom content.

Welcome Ad or Video

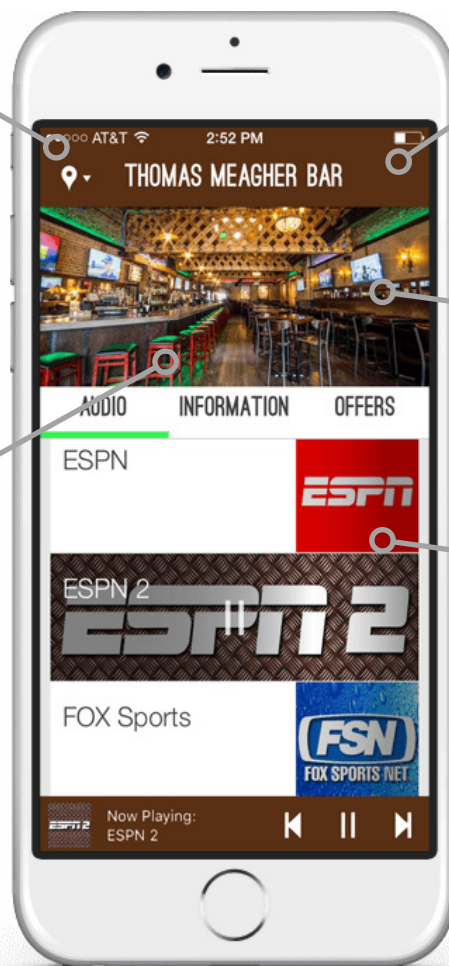

The first thing customers see when opening the app. Set the number of seconds before your welcome ad or video can be skipped.

Sliding Promotional Banners

Upload ads, coupons, promotions, or special events banners that can click through to your menu, websites, etc.

Custom Labels for Channels

Channel logos and other graphics make it easy for guests to find desired channel.

Download the App & Try the Demo at: <http://www.audioeverywhere.com/how-it-works/>

Tap on channels, banner ads, offers and PDFs to see and hear just like in a live venue.

1. Fire up the app
2. Select "About" from the menu
3. Turn on "Enable Demo Mode"
4. Select "Venue scan"
