

CALISTO 7200

Big audio performance for small group conference rooms.

Designed for small spaces and big expectations.

Premium speakerphone

CALISTO 7200

When you need exceptional conferencing performance in a small group conference room, turn to Calisto 7200. With four MEMS-directional microphones that provide 360° coverage and filter out unwanted noise, USB and Bluetooth® connectivity and touch-sensitive controls, it's ready when you are.

KEY FEATURES

- A** Four MEMS-directional microphones provide 360° room coverage
- B** Bluetooth clearing function removes unwanted devices
- C** Locking mechanism keeps the device stationary in small team meeting rooms
- D** Connect easily via USB and Bluetooth

TOP FEATURES

- Simplify call management with intuitive touch-sensitive controls to answer/end, mute and adjust volume on PC or smartphone
- Four MEMS-directional microphones ensure crystal-clear audio performance by activating in the direction of the speaker's voice
- 360° room coverage with active background noise reduction is perfect for mobile-professionals who have to make calls in a variety of settings
- PC wideband audio and digital signal processing (DSP) reduce drop-outs and acoustic echo cancellation (AEC) virtually eliminates echo
- Plantronics Manager Pro software-as-a-service, which is sold separately, allows IT to gain insight into device usage, inventory tracking and firmware updates as they become available
