BUSINESS HANDHELD DICTATION

Stereo microphone system

4-position slide switch control

Full color screen

Resilient in everyday dictation

Rechargeable Lithium-ion battery

The DS-2700 offers advanced features such as stereo microphones for dictation and meeting recording, streamlining workflow and enhancing dictation management efficiency. The triple-layer studio-quality filter guarantees precise voice capture whilst minimizing unwanted sounds such as breath and wind vibrations. This results in superior accuracy, ultimately improving workflow efficiency.

- Stereo Microphones.
- Low noise omni-directional microphones. The shock absorber reduces chassis and touch noise.
- Alcohol Resistance for ease of cleaning.
- Full editing features such as Insert, Overwrite and Partial Erase.
- Flexible recording options with DSS, PCM and MP3.
- Up to 56 Hours use with the rechargeable Li-Ion Battery.
- 2GB built-in memory and SD Card slot (up to 32GB).
- Includes ODMS R8 ON PREMISE Software (Dictation Module).
- For typists, the AS-2700 ODMS R8 ON PREMISE Transcription Kit is available separately offering a 3 switch foot pedal and headphones.
