Portrait Kiosk

Fits most 55" & 65" displays less than 4.00" (101mm) deep

Experience the elegance of Peerless-AV's indoor Portrait Kiosk, designed to support the latest displays and touchscreen panels up to 4" deep. With a flat base that can be free-standing or bolted to the ground, the kiosk allows for electric and data cable access, for simplified installation and maintenance. Plus, the kiosk includes two thermostat-controlled exhaust fans to assist in keeping internal components at an optimal temperature. To maintain a clean aesthetic, the kiosk offers an internal tray for media players and cables, as well as lift-off, bi-level rear doors that provide direct access to parts requiring maintenance. For theft protection, the kiosk features keyed-alike cam locks specific to the kiosk. From entertaining to wayfinding, the new kiosk is an ideal solution for various indoor application settings, including corporate, retail, and hospitality.

- All steel construction plus a 3/8" thick base plate provides strength and freestanding stability
- Six outlet, UL- and cUL-approved surge suppressor with 6' cord to protect voltage-sensitive components from damaging power surges
- Internal micro-adjustments allow for quick alignment of display within the kiosk window
- Secured doors allow convenient access to the display, media player and other internal components for easy installation and maintenance
- Component tray and shelf provide a dedicated area for storing AV equipment
- Premium powder coat finish protects the unit and extends the product lifespan for years
- A wide range of custom aesthetic options also available; options include custom color finishes, decal logo and non-glare acrylic display cover
- Wheel Base KIPC25(-S)-WHL models are available with 2" casters and leveling feet, which allows you to easily move the kiosk around and lock it into place

Note: Kiosk enclosure does not include cover glass
