

healtHcentric Lab C24 Stool

Ergonomic design with anti-slip protection and enhanced cleanability

healtHcentric®
The science of sitting®

Superior comfort and cleanability for lab environments.

healtHcentric Lab C24 Stool is designed to support the tasks required in a laboratory environment while increasing comfort, health and productivity.

healtHcentric Lab C24 includes our 24" chrome base. The oval tube foot ring is welded on to the frame and will withstand even the toughest lab environments. Various seat size options and arm types make it versatile for all body types and workstations. Features such as the solid back cap and optional Frixion medical grade upholstery provide superior cleanability, anti-slip protection and peace of mind.

Lab C24 - Low Back

Upholstered front with solid back cap

Swing away arms (optional)

Frixion™

Vinyl upholstery is slippery. The solution is Frixion.

healtHcentric's Frixion medical grade upholstery is specially designed to provide ergonomic benefits and prevent falls. Frixion helps the user stay in place and not slide forward on the chair as they sit, improving comfort and increasing the ability to engage with the lumbar support.

Frixion withstands hospital-grade cleaners and disinfectants, ensuring a hygienic seating surface for healthcare workers and patients.
